NOTES:

MHC # – MHC identification numbers. Properties surveyed in this project have been plotted by identification letter or number on a large **base map** provided by the Town Clerk’s Office. The numbering sequence, worked out in conjunction with the Massachusetts Historical Commission staff, may be used to easily identify all of Carlisle’s historic resources in the state-wide computerized data base for historic properties, which is called MACRIS (Massachusetts Cultural Resource Information System), as well as in the local file. MACRIS numbers have a three letter code for each town that appears in front of the number. Carlisle’s code is CAR which is separated from the number by a period (e.g. CAR.2)

LHD - Properties already included in the Local Historic District are so designated with an “LHD” in the Designation Column.

FORM TYPE: A – Area
 B – Building
 C – Object
 E – Burial ground
 F – Structure
 H – Parks & landscapes
