Dear Jeff:

At the September 15, 2014 meeting of the Carlisle Board of Appeals, you informed us that you would have an updated list of requested waivers as well as a response to our request for additional information by the end of that week (September 19, 2014). To date, we have not received any additional information from you. Much of this information had previously been requested from you at the initial public hearing on July 28, 2014 which was almost two months ago. Without this information, we are constrained in our review of the project which is problematic in light of the state established time frames for the review of a project seeking a Comprehensive Permit.

I would appreciate it if you would provide us with this information so that we can continue to review this project in accordance with the prescribed timeframes.

Additionally, please let me know whether your traffic engineer has reviewed the comments on the scope of services and is moving forward with preparing the study. Kindly let us know when we can expect to receive said study.

Sincerely,

Lisa Davis Lewis
