Subject: Following up to the last ZBA meeting

Date: Mon, Nov 24, 2014 10:07 am

Brem-118-11.24.2014

Peggy,

I was a little confused after the meeting, probably because my hearing is so bad. If you can clear this up it would be appreciated.

What is the next step as far as the water testing?

Is Steve Smith going to prepare a detailed testing proposal based on all the discussions we had at the meeting? Or is Steve negotiating a testing proposal with Mr Brem's hydrologist?

All I heard was some comments by the board to the effect that all parties were in some level of agreement. Very confusing!

Per my letter to the board I think it is extremely important for all parties to see specifics and clearly understand the process!

Thanks,

Thornton
