

To Carlisle ZBA:

Based on comments that were made at the previous meeting, I was left with the impression that decisions might be made, at least partially, based on the fact that the state would ultimately grant waivers and that there would be a cost to the town if waivers went to appeal. I would hope that neither of these would influence decisions made by the ZBA and that each waiver request be considered on its own merit and with due consideration of the recommendations of the various other committees. As a taxpayer, I support the committees' hard work and support the expense that the town might incur going forward doing due diligence in the matter. It is important that the proper and ethical decisions be made to protect the health and safety of the residents of Carlisle.
