

Welcome to Blackboard Connect Emergency Notification System

The Town of Carlisle is pleased to announce the launch of the Blackboard Connect service, our new town to resident emergency notification system. With this service, town officials can send personalized voice messages to residents and businesses within minutes with specific information about time-sensitive or common-interest issues such as emergencies and local community matters. The Blackboard Connect service will be used to supplement our current communication plans and augment public safety/first responder services.

The Town will be sending out a test message using published numbers on Tuesday, February 15, 2011. Please accept our invitation to participate in this emergency service. You can add email, work phone number and cell phone numbers and choose whether or not you would like text or voice messaging by clicking the Blackboard Connect image and signing up. We know that your personal information is important, and rest assured that we will not share it with anyone.

Do you have questions about this new service? Click [here](#) for Blackboard Connect FAQs.
