In Re: 100 Long Ridge Road  
40B Application for Comprehensive Permit

Dear Sir:

The Carlisle Board of Health has received a copy of your application to the Zoning Board of Appeals relative to the above development. The application included a plan entitled "Preliminary Utility & Plan and Profile, Brem Property, 100 Long Ridge Road, Carlisle, MA prepared for Lifetime Green Homes LLC, dated June 30, 2014". The condominium development consists of 20 units (19 three-bedroom units and 1 four-bedroom house) to be served by 9 private wells.

# Wells	# Units Served per Well	# Units
5	2	10
3	3	9
1	1 (house)	1
<b>9 total</b>		<b>20 total</b>

The Board of Health is concerned that the water supply for the development should be classified as a Public Water Supply regardless of legal ownership by taking into account the potential risk to public health. It is up to the Department to make this determination (310 CMR 22.02)

The Board therefore requests that you obtain a written determination from the Department and that the Board participate in any discussions to decide this issue. Since classification of the water supply may have significant impacts on the overall design of the development, the Board strongly recommends that you obtain the determination as soon as possible.

Very truly yours,

*William Risso*  
William Risso
