For transfers permissible by license, the following are designated to the license granting authorities (LGA). For any transfer involving more than one license granting authority, the LGA of record shall be the first-occurring in the list:

8.6.1.1 Planning Board. For transfers incidental to approved subdivisions, common driveways, and ponds (See Section # 5.2.5 of the Zoning Bylaws);

8.6.2 Requirements for review by the LGA

Any person who desires to receive a license for transfer shall submit a written application for such license with the LGA. The LGA shall define the specific data to be included in the application as part of its rules and regulations. Data to be included must be sufficient to allow the LGA to make valid findings, and may include such items as:

8.6.2.1 Plans of the area at a sufficient scale and level of detail to determine condition of the land both before and after the proposed transfer;

8.6.2.2. A statement of plans for the disposal of rocks, tree stumps and other waste materials, and for the drainage of the site during and after the transfer operations. For operations within one hundred (100) feet of land subject to the Wetlands Protection Act, the application may include a statement of plans for the protection of any portion of an underground water source or supply, including without limitation springs, wells or aquifers;

8.6.3 Notification and Hearing

Upon receiving an application under this section, the LGA shall hold a public hearing on the proposed transfer within twenty-one (21) days of such application. Notice of the time and place of said hearing shall be given by the LGA at the

expense of the applicant, not less than five (5) days prior to such hearing, by publication in a newspaper of general circulation in the town, and by mailing a notice to abutters. The LGA shall transmit a copy of the application to other town boards, as appropriate, prior to the hearing. The LGA shall render its decision on the application within twenty-one (21) days of the public hearing.

8.6.4. Findings

After notice and a public hearing, the LGA shall grant a license for transfer of earth if it finds that:

8.6.4.1 The plans submitted in connection with the transfer are designed to minimize changes in existing contours in keeping with attractive land utilization, effective drainage, suitable road gradients, access or other design considerations; and

8.6.4.2 The volume proposed for transfer does not exceed the minimum practical amount required to accomplish the construction, development or improvement in accordance with plans therefor; and

8.6.4.3 Effecting the transfer will not be detrimental or injurious to abutters or the neighborhood, either by the alteration of existing topography or by a substantial change in the use of streets in the neighborhood.

8.6.5 Conditions of a License

If a license is granted, the LGA shall impose conditions on the time and the extent of the permitted transfer and such other appropriate conditions, limitations and safeguards as the LGA deems necessary for the protection of the neighborhood and of the public health, safety, and welfare of the town, and may condition the continuance of the permit upon compliance with regulations of the LGA then in force or thereafter adopted. The LGA may require sufficient security, including necessary covenants, to insure compliance with the terms, conditions and limitations of the earth transfer license. No license shall be granted for longer than one (1) year.

8.6.6. Filing of License

A copy of the license must be on file with the chief of police and the Town Clerk prior to the beginning of the transfer operations.

8.6.7. Additional Conditions of a License

The members of the LGA and other town officers or their agents may enter upon the premises covered by any license from time to time to inspect and insure proper conduct of the work. Upon petition of the owner of the premises, licenseholder, or abutters, or upon its own initiative, the LGA may hold a new hearing and reissue or modify the license. The LGA may order the revocation of, or suspension of, a license if the conditions provided in the license are not complied with; but neither the license-holder in such case, nor any surety on a bond

furnished to secure compliance with the conditions of the license, shall be relieved of his obligations thereunder.

8.7 Stockpiling

Transferred material may be stockpiled, subject to the following provisions;

- 8.7.1. No external change is made which alters the residential appearance of the premises.
- 8.7.2. The stockpiling does not produce dust, erosion, or other effects at the lot lines in amounts exceeding those normal to residential property.
- 8.7.3. For stockpiling in excess of two thousand (2000) cubic yards, the material must be at least fifty (50) feet from all street and lot lines.

8.8 Subdivision Approvals

No approval of a subdivision plan by the Planning Board shall be construed as authorizing the transfer of earth from or to any parcel of land except pursuant to the provisions of this article.

The purposes of this Bylaw are to:

12.2.1 Ensure that roads recommended for designation as Scenic Roads pursuant to Chapter 40, Section 15C of the General Laws (“the Scenic Road Act”) meet certain specified criteria;

12.2.2 Ensure that roads designated by Town Meeting as Scenic Roads will not be altered by any person, organization or agency, in any way that requires the cutting or removal of trees, or the tearing down or destruction of stone walls, without adherence to applicable procedures and without the consent of the Planning Board, pursuant to the Scenic Roads Act;

12.2.3 Ensure that the provisions of the Scenic Roads Act, this Bylaw and any rules and regulations promulgated hereunder shall be equitably enforced.

12.3 Procedure for Designation as a Scenic Road

Any person, agency or organization may petition the Planning Board, the Conservation and/or the Historical Commission to request that the Board(s) consider recommending that a road or portion thereof be designated as a Scenic Road.

In determining whether to make a recommendation to Town Meeting that a road be designated as a Scenic Road, the Board(s) shall consider the extent to which such road is bordered by any natural or man-made features of aesthetic, conservation, or historic value, the alteration of which would lessen the value of those features. In particular, the Board(s) shall consider whether such road is bordered by trees and/or stone walls

SCENIC ROADS

- 12.3.1 that enhance an open vista such as agricultural land, orchards, farmland, open fields, or pastures;
- 12.3.2 that enhance the rural character of ancient, narrow and winding ways;
- 12.3.3 that protect natural resources, such as water supply, natural habitat, and/or watershed areas;
- 12.3.4 that maintain the historic nature of the road, or the nature of a road that serves an historic district, or is bordered by antique homes or structures; or
- 12.3.5 that are of exceptional quality;

12.4 Notification of Designation as a Scenic Road

Hereafter upon the designation of any road as a Scenic Road by Town Meeting, the Planning Board shall give prompt written notice of that action to all municipal departments, the Massachusetts Highway Department or its successor, and all utility companies doing business in the Town of Carlisle; shall publish a notice of the designation in a newspaper of general circulation in the Town; and shall notify in writing all property owners abutting the designated road(s).

12.5 Consent of Planning Board Required

In accordance with G.L. Ch. 40, Section 15C, after designation as a Scenic Road, no repair, maintenance, reconstruction or paving work shall involve the cutting or removal of trees or the tearing down or destruction of stone walls without prior written consent of the Planning Board following notice and a hearing.

12.6 Planning Board Regulations

The Planning Board shall adopt rules and regulations governing the procedures to be followed by persons, agencies, and organizations proposing to cut or remove trees or to tear down or destroy stone walls or portions thereof within or bordering a Scenic Road in connection with repair, maintenance, reconstruction or paving work on such road. Said rules and regulations shall include, without limitation, provisions regarding notice and hearing as required under G.L. Ch. 40, Section 15C, and provisions regarding the content, form and timing of applications made for the Planning Board's consent, and guidelines and procedures to be employed by the Planning Board in administering this Bylaw.

12.7 Public Shade Tree Act

Nothing in this Bylaw or in the rules and regulations adopted hereunder shall be construed as abrogating the authority of the Tree Warden as set forth in G.L. Ch. 87, Section 5. Further, nothing in this Bylaw or in the rules and regulations adopted hereunder shall be construed as abrogating the authority of the Town officials in an emergency to remove trees or tree limbs which endanger the public.

ARTICLE XIII

13 WETLANDS PROTECTION

13.1 Purpose and Jurisdiction

- 13.1.1 The purpose of this Bylaw is to protect the wetland and water resources of the Town of Carlisle by regulating activity in or near wetland resource areas. Conditions shall be imposed by the Carlisle Conservation Commission (the "Commission") after a public hearing at which the Commission determines that the area on which the proposed work is to be done is significant to public or private water supply, to ground water supply, to flood control, to storm damage prevention, to prevention of pollution, to protection of land containing shellfish, to the protection of wildlife habitat or to the protection of fisheries (collectively, the "Interests Protected by this Bylaw")
- 13.1.2 Except as permitted by the Commission or as provided in this Bylaw, no person shall remove, fill, dredge, or alter any bank, fresh water wetland, marsh, meadow, bog, or swamp bordering any creek, river, stream, pond, or lake, any land under said waters, any land subject to flooding, or any riverfront area (collectively, the "Resource Areas Subject to Protection").
- 13.1.3 Any activity proposed or undertaken within the "Buffer Zone" or Resource Areas Subject to Protection which, in the judgment of the Commission, will remove, fill, dredge or alter a Resource Area Subject to Protection under this Bylaw is subject to regulation under the Bylaw and requires the filing of a Request for Determination (Request) or Notice of Intent, Abbreviated Notice of Intent, or Abbreviated Notice of Resource Area Delineation (Notice).
- 13.1.4 Any activity proposed or undertaken outside the Resource Areas Subject to Protection and outside the Buffer Zone is not subject to regulation under this Bylaw and does not require the filing of a Notice of Intent unless and until that activity actually alters a Resource Area Subject to Protection under this Bylaw. In the event that such activity has in fact altered a Resource Area Subject to Protection under this Bylaw, the Commission shall impose such conditions on the activity or any portion thereof as it deems necessary to contribute to the interests protected under this Bylaw.
- 13.1.5 It is not the purpose or intention of this Bylaw to exceed Mass. Gen. Laws Ch. 131 Sec. 40 as amended on February 14, 1997, or the Wetland Protection Act Regulations 310 CMR 10.00 as amended May, 2008, except in the following Bylaw sections: 2, 10, and 11.

13.2 Applications and Fees

- 13.2.1 Any person who proposes to do work which will remove, fill, dredge or alter any Resource Area Subject to Protection under this Bylaw shall submit a Notice to the Commission which bears the signature of the owner of the subject property. Application under this Bylaw may be identical in form to a Notice of Intent filed pursuant to Mass. Gen. Laws Ch. 131, Sec. 40, and shall be sent by certified mail or hand delivered to the Carlisle Conservation Commission. Said application shall be accompanied by a filing fee set forth in the rules and regulations promulgated by the Commission and payable to the Town of Carlisle, and must be filed concurrently with or after applications for all other variances and approvals required by the Zoning Bylaw, the Sub-division Control Law, local Board of Health Regulations or any other bylaw or regulations relevant to the project. The written application shall include such plans as may be necessary to describe such proposed activity and its effect on the environment. No filing fee is required when a department or officer of the Town of Carlisle files an application for the Town.
- 13.2.2 Any person who desires a determination as to whether this Bylaw applies to land or work which may affect a Resource Area Subject to Protection may submit a Request for Determination of applicability to the Commission. Requests shall be accompanied by a filing fee set forth in the rules and regulations promulgated by the Commission. The Request application may be identical in form to a Request filed pursuant to Mass. Gen. Laws Ch. 131, Sec. 40. If the person making the Request is not the owner, the applicant shall send a copy of the Request by certified mail (return receipt requested) to the owner.
- 13.2.3 The receipt of such Notice or Request shall be acknowledged in writing on the face thereof and shall include the time and date so received. A person delivering said Notice by hand shall be given a receipt in writing acknowledging the time and date such filing was received.
- 13.2.4 Each Notice or Request filed shall be assigned a unique identification number (hereinafter, "File Number") to facilitate record keeping by the Commission. Said File Number may be identical to that assigned by the Massachusetts Department of Environmental Protection.
- 13.2.5 Any person filing a Notice or a Request with the Commission shall give at the same time written notification thereof, by certified mail (return receipt requested) or hand delivery, to the owner and all abutters at their mailing addresses shown on the most recent Certified Abutters List.
- 13.2.6 In addition to any filing fee imposed by the rules and regulations promulgated under this Bylaw, the applicant shall reimburse the reasonable costs and expenses borne by the Commission for specific expert engineering and consulting services deemed necessary by the Commission, provided that the scope of the application meets the criteria set forth in Section 2.7 of this Bylaw. The amount of the reimbursement fee shall be based on the standard set forth in Section 2.10 of this Bylaw and shall be constrained by the following:

- 13.2.6.1 For sewage disposal system repair and/or landscaping projects for an existing single family residence, a maximum reimbursement fee of ZERO DOLLARS (\$0.00) per File Number may be imposed for a Notice, Request, or request for Certificate of Compliance.
 - 13.2.6.2 For projects to access, construct or modify one single family residence, a maximum reimbursement fee of ONE THOUSAND DOLLARS (\$1,000.00) per File Number may be imposed for a Notice of Intent.
 - 13.2.6.3 For all other projects, a maximum reimbursement fee of FIFTEEN THOUSAND DOLLARS (\$15,000.00) per File Number may be imposed for each Notice, Request, and request for Certificate of Compliance.
- 13.2.7 The Commission is authorized to charge this site and/or design review reimbursement fee when the Commission determines that a Notice, Request, or Certificate of Compliance involves any of the following: 500 square feet or greater of alteration of Freshwater Wetlands; 50 linear feet or greater of alteration of a Bank, Stream or River; 500 square feet or greater of alteration of the Buffer Zone; alteration of greater than 500 square feet of Land Under Bodies of Water; discharge of any pollutants into surface or ground waters of any resource area under this Bylaw; or construction of a detention or retention basin or other drainage device.
- 13.2.8 Said specific expert engineering and consultant services, may include but are not limited to consultants' overhead and office expenses required to process said Notices, Requests and Certificates; copying plans and technical submittals for further review; sub-contracting for professional services; mileage; wetland survey and delineation; hydro geologic and drainage analysis; purchase or borrowing of materials; wildlife habitat, rare species, shellfish and fisheries evaluation; and environmental or land use legal consultation.
- 13.2.9 Said reimbursement fee shall be paid by the applicant within thirty (30) calendar days of receipt of a written request from the Commission. Said payment may be required by the Commission at any point in reviewing or deliberating processes to pay for services rendered thus far, including prior to a final decision being rendered but not before the Commission has received the actual bills for the site and/or design review. The fee shall be paid to the town into an account of the Commission which is set up by the Treasurer for this purpose, separate and apart from all other Town monies, and which may be drawn upon by the Commission for services approved by the Commission at a public meeting. The principal shall be expended by the Treasurer at the direction of the Commission for site and/or design review costs and expenses.
- 13.2.10 In setting the amount of said reimbursement fee, the Commission shall utilize the following standard: the fee shall equal the amount of the actual bills for all expenses incurred for the File Number that is submitted by an expert engineer or consultant, up to the maximum amount set forth in Section 2.6 of this Bylaw.

13.3 Hearings and Meetings

- 13.3.1 For a Request, the Commission shall hold a public meeting within twenty-one (21) calendar days of its receipt. Notice of the time and place of the meeting shall be given by the Commission at the expense of the applicant, not less than five (5) days prior to the meeting, by publication in a newspaper of general circulation (in Carlisle) and by mailing a notice to the applicant and to the owner by certified mail (return receipt requested).

13.4 Permits and Conditions

- 13.4.1 For Requests, the Commission shall issue a Determination of Applicability within twenty-one (21) calendar days of receipt of said application. If, after the public meeting, the Commission determines that the area is significant to the Interests Protected by this Bylaw, the Commission shall issue a positive determination and request that the applicant file a Notice. If the Commission determines that the area which is the subject of the application is NOT significant to the interests protected by this Bylaw, or that the proposed activity does not require the imposition of conditions, it shall issue a negative determination. When the person requesting a determination is other than the owner, notice of the determination shall be sent to the owner as well as to the requesting person by certified mail (return receipt requested).

- 13.4.2 For Notices of Intent, and Abbreviated Notices of Intent, the Commission shall issue an Order of Conditions within twenty-one (21) calendar days of the close of the Public Hearing for said application. Such Notification of Nonsignificance shall be signed by the majority of the Conservation Commission and a copy thereof shall be sent forthwith to the applicant by certified mail (return receipt requested). An Order of Conditions shall be valid for three (3) years unless specifically stated otherwise. The Commission may renew an Order of Conditions for an additional one (1), two (2) or three (3) year period. If renewal of an Order of Conditions is requested, it must be received in writing by the Commission at least thirty (30) calendar days prior to the expiration date of the Order.
- 13.4.3 No work proposed in any application shall be undertaken until the Order of Conditions, or Notification of Nonsignificance with respect to such work issued by the Commission has been recorded in the Registry of Deeds or, if the land affected thereby be registered land, in the registry section of the Land Court for the district wherein the land lies, and until the holder of the Order of Conditions certifies in writing to the Commission that the Order has been so recorded.
- 13.4.4 Within twenty-one (21) days of the receipt of a written request, by the applicant or the owner of the property, for Certificate of Compliance, the commission shall grant such request if the activity, or portions thereof, complies with the Order of Conditions and if, at the time of such request, there are no outstanding notices of violation or unsatisfied fines issued by the Commission or by the Massachusetts Department of Environment Protection against a property which is the subject of such a request. The Certificate of Compliance shall state that the activity, or portions thereof, has been completed in accordance with such Order.
- 13.4.5 No conditions shall be imposed, nor shall any Determination be rendered by the Commission, in reference to this Bylaw, unless the commission meets with a quorum present.

13.5 Exceptions

An emergency project shall mean any project certified to be an emergency by the Commission. If the Commission fails to act favorably within twenty-four (24) hours of receipt of a request for certification of an emergency project, said project may be so certified by the Selectmen. In no case shall any removal, filling, dredging or alteration authorized by such certification extend beyond the time necessary to abate the emergency.

Laws Ch. 131, Sec. 40, shall be presumed correct except in those areas in which this Bylaw specifically exceeds Mass. Gen. Laws Ch. 131, Sec. 40. Each day such violation continues constitutes a separate offense except that any person who fails to remove unauthorized fill or otherwise fails to restore illegally altered land to its original condition after giving written notification of said violation to the Commission, shall not be subject to additional penalties unless said person thereafter fails to comply with an Enforcement Order or Order of Conditions.
- 13.10.8 Any person who purchases, inherits or otherwise acquires real estate upon which work has been done in violation of the provisions of this Bylaw or in violation of any Order issued under this Bylaw shall forthwith comply with any such Order or restore such properties to their condition prior to any such violation; provided, however that no action, civil or criminal, shall be brought against such person unless such action is commenced within three (3) years following the recording of the deed or the date of the death by which such properties were acquired by such person. Any court having equity jurisdiction may restrain a violation of this Bylaw and enter such orders as it deems necessary to remedy such violation, upon the petition of Attorney General, the Commission, the Town of Carlisle, an owner or occupant of property which may be affected by said removal, filling, dredging or altering, or ten residents of the Commonwealth under the provision of Sec. 7(A) of Ch. 214.
