Current Business

		<i>Discussion</i>	<i>Action</i>
1	1	<p>Sustainability management We should make a list of what are the most critical issues that we need paid staff to do, and what can we do voluntary; i.e. PAID TASK : Tracking and data collection making informed decisions. Volunteer to enter information. What are the smart systems we can utilize Grant applications. Coordinating the volunteers. Maintaining website. VOLUNTEER TASKS: project managing.</p>	Pending
2		<p>CO2 emissions Report Waste incineration: roughly 1 lb carbon, 1lb of trash burned. 1500 metric tons of CO2 equivalent based on the 2016 data. "Carbon credit" for electricity produced from trash is only 15% (not included above). Approximately 3% our total carbon footprint, goes on the burning of trash. Emissions estimates for Carlisle are preliminary and are open to some help crunching the data in more depth. Letter to the editor for the Mosquito regarding the above points.</p>	RZ/DB
3		<p>Master planning coordination Coordination with the master-planning group on sustainability on going. Presentation on 27th. Debbie Bentley to attend . Bob Zogg to share the draft emissions slides with Janne.</p>	DB
4		<p>Transportation: Electric Vehicle Owners and potential future owners. Launch party when EV charging station is installed.</p>	pending
		<p>Data collection We need to collect actual data of people's fuel use for their homes. Including the heating load information.</p>
