

Dental Coverage Options in Massachusetts

Updated 10/2/19

Medicare

Original Medicare: Medicare does not pay for routine dental care (ex. fillings/root canals). Medicare can help pay for services of a dentist only if the medical problem is more extensive than the teeth or the structures supporting them (ex. removal of foreign bodies such as soft tissue tumors, bone removal, surgery for the lip or tongue, fracture of the jaw).

For more information, call 1-800-MEDICARE.

Medicare Advantage/Medigap Plans: Plans may cover some extra dental services (e.g. preventive dental checkups) in addition to the basic benefits covered under original Medicare. Check with the individual plan to learn more about what they may cover.

MassHealth

MassHealth: Limited dental services may be available to MassHealth members. For fillings or other restorative dental treatments, MassHealth members should contact a local Community Health Center dental program.

For information about what services are covered and a list of dentists in their area accepting MassHealth patients, members may contact *MassHealth Dental Customer Service at 1-800-207-5019* or go online at <http://masshealth-dental.net> for a list of providers.

Senior Care Options (SCOs)

Senior Care Options (SCO): These plans provide comprehensive dental coverage. To qualify for a SCO plan individuals must reside in the service area of the plan, be aged 65 and older, and qualify for MassHealth Standard. For more information contact the Senior Care Options division at 1-888-885-0484.

Community Health Centers (CHCs)

Massachusetts Community Health Centers: Many CHC's provide a wide range of dental services for Massachusetts residents with and without insurance. CHC's accept most forms of insurance, including MassHealth, Health Safety Net, as well as private insurances. A sliding-fee schedule is also available for those residents who are low income. For Health Safety Net: Must fill out a MassHealth application and use a Community Health Center to be covered.

For more information and locations, call the *Office of Oral Health at 617-624-6060* or the *Mass League of CHC's at 617-426-2225*.

Chewsi

Chewsi® helps you save on every dental service, every time, through a smartphone app that is free to download and easy to use.

Just download the app and register, call for a dental appointment, and use Chewsi to pay and save an average of 20 to 30% (savings vary by dentist and service) on dental services — from cleanings, x-rays and fillings to crowns, dentures and implants. No exclusions or restrictions, and no monthly or annual fees.

Visit ChewsiDental.com to learn more or call *Chewsi at 1-855-624-3974* to learn how Chewsi can help you save if you don't have a smartphone.

VA Medical Centers

VA Medical Centers: The VA provides comprehensive dental care for eligible veterans. Eligibility will be determined by the medical eligibility personnel at each of the local VA Hospitals.

For more information, contact the [VA New England Health Care System 617-323-7700](tel:617-323-7700).

University/College Dental Programs

University/College Dental Programs: Discounted services are provided by students supervised by faculty, typically at one-third to one-half of private practice costs. Some schools accept MassHealth insurance. Services provided may include general dentistry, dental hygiene, periodontics, dentures. Many community colleges offer discount services (cleanings and x-rays only) through the Dental Hygienist Program. Call the programs listed below to inquire about what dental services may be available.

Boston University of Graduate Dentistry	100 E. Newton St.	Boston	617-638-4700

Massachusetts Health Connector

Individual (Non-Group) Dental Plans: Dental insurance is available through the Health Connector which is the Massachusetts health and dental insurance marketplace. Standardized dental plans are offered by Altus Dental and Delta Dental and include both a Basic and Enhanced coverage plan. The dental plans are not subsidized.

All Health Connector dental plans cover preventive services, such as regular cleanings, extractions, sealants, diagnostic services such as x-rays, and basic restorative services such as regular fillings. Enhanced coverage plans include all preventative and basic restorative coverage plus more comprehensive coverage such as crowns, bridges, and dentures. Every plan has an annual benefit maximum (which may vary) and no out-of-pocket maximum.

To learn more about the available plans, find a dentist covered by a plan or enroll in a plan, call the [Massachusetts Health Connector at 1-877-623-6765](tel:1-877-623-6765) or go online at mahealthconnector.org.
