

Reuse – Swap Shop

Swap Shop Guidelines

The Swap Shop is intended to allow Carlisle residents to leave gently used, and still useful, items so that other residents might take them for their own personal use. Smaller items should be placed in the Swap Shop. Place items on the shelves in the Swap Shop to allow others to easily see each item. Do not place boxes or bags of mixed or individual items in the Swap Shop.

Generally speaking, items placed at the Swap Shop should be of use to most people, otherwise the shed becomes cluttered and difficult to navigate.

Please consider the following:

Games and toys should be complete and in working order.

Solid household items should be clean and whole; not cracked, chipped or broken.

Small appliances should be clean and in working order.

Books should be placed on the book shelves, not left in closed boxes or bags.

Items should be placed on the shelves or outside the shed in such a way that they are easy to see/access. Do not leave a bag of items that others will need to rummage through to know what is there.

Clothing should be placed in the Textile Bin.

Things that do not meet this general criteria are really trash and should be recycled or put in the household waste compactor rather than the Swap Shop.
